

MyGBS

High Quality. Innovative Solutions.

MyGBS offers our customers online requisitioning and inventory management for marketing materials, point of purchase items, point of sale items, labels, stationery and business forms.

MyGBS is your solution to managing all your electronic and printed documents.

DOCUMENT MANAGEMENT CAPABILITIES

MyGBS, our online customer portal, provides a complete electronic document management system that streamlines business processes and leverages technology to increase inventory control, enhance efficiency and reduce administrative burdens associated with printing, ordering, and managing printed and electronic documents.

TOTAL EFFICIENCY

MyGBS encompasses the complete lifecycle of a document from creation and production through distribution. Our online requisitioning portal provides you with 24/7 access to order, soft-proof and print documents. Items can be routed to print in the most cost effective manner, whether that is to your local printer, in-house print shop or by GBS. Managing your printed items through MyGBS can help reduce obsolescence by printing items when needed and in the appropriate quantities. GBS helps you control these items more effectively through our online inventory management system.

By utilizing MyGBS in your daily business activities, you can access inventory management information quickly and easily. Real-time inventory inquiry provides summarized information such as historical usage, reorder points, and last order quantity. This inventory reporting tool also provides flexibility to create customized reports that compare date ranges, use filters to determine specific information obtained, and are able to download to Excel. Reports can be customized with information including aged inventory, usage by ship to, usage by cost center, inventory status, and other information. Reporting and control are the keys to making MyGBS a successful tool for your ever-changing business needs.

ADDITIONAL BENEFITS

MyGBS makes one-stop shopping a reality. Electronic or printed materials, point of purchase/point of sale items, labels, stationery and business forms can be ordered or accessed within the same catalog—reducing the time spent accessing multiple sites. An extensive searching ability makes finding the correct item very easy. You can build personal favorites pages to quickly locate items you use frequently, and save searches by Item ID and/or keyword for future use. The item directory displays thumbnails of the items listed for easy identification. Variable data print items such as business cards and marketing materials can be created and soft proofed before submitting each order. This provides for a timely and accurate product delivered the first time.

WE HAVE A SOLUTION FOR THAT.
