

# Automotive Labels

High Quality. Affordable Solutions.

## APPLICATION CONSULTANTS

GBS offers over 30 years of experience and a full array of cost saving solutions for all of your automotive label applications. We understand the importance of label performance during the production process and are driven to make sure your labels are PPAP tested, meet the specifications, and perform under the toughest conditions.

GBS routinely meets with engineers to understand the process a label goes through and assess ways to drive costs out of the process. One way we accomplish this is by recommending alternative materials capable of meeting your performance standards at a lower cost. GBS can provide innovative and cost effective solutions for all of your labeling needs.

## VALUE SOLUTIONS

GBS' technology solutions will help you manage your label purchasing program and provide greater opportunity for cost savings. Through our online customer portal you can view a comprehensive catalog of all your labels and place orders online. The portal also gives you the ability to view usage data, shipping status, and real time inventory reports. All of the information available through the portal can be used to create customized reports to better manage your business. Our technology is able to be integrated with your existing enterprise systems, and we can provide warehousing and distribution services. GBS is capable of being a single source provider for all of your labels and is highly responsive to your changing needs.

GBS offers comprehensive solutions for all your automotive labeling needs.

GBS is committed to exceeding customer expectations by delivering process improvements, and innovative solutions focused on driving cost out of your business processes.

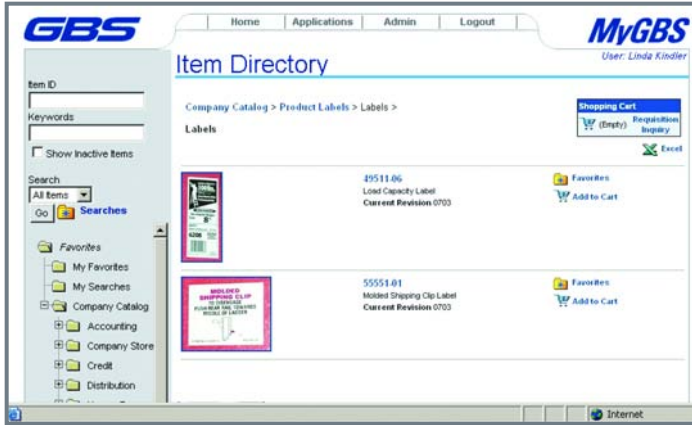

A MAJOR AUTOMOTIVE MANUFACTURER WAS EXPERIENCING EXCESSIVE WASTE, STOCK-OUTS AND RUSH CHARGES ON THEIR PRODUCTION TAGS. GBS SOLVED THIS PROBLEM BY KITTING, WAREHOUSING AND RELEASING THE TAGS ON A MONTHLY SCHEDULE. THE CUSTOMER HAS REALIZED A COST SAVINGS OF \$10,000 ANNUALLY.
