Print and Label Management Solutions

Anyone can provide labels and other printed items. GBS provides much more- being able to manage the complete process – printing, warehousing, fulfillment and inventory management. GBS understands that every industry’s print and labeling needs are different and meets them by selecting the most cost effective materials, printing process, and equipment for each application. We focus on a range of resources for delivery such as web, flexo, sheet-fed, digital and electronic distribution.

GBS Print Technology

Our intense commitment and success in our Label and Print Management Programs are spurred by our priorities around driving down the “Total Cost of Ownership” for your organization.

Typical Drivers for Success

- Wide breadth of manufacturing capabilities
 - > Narrow web, wide web and digital offerings
- Strong warehouse and distribution experience
 - > Deferred and cycle billing accounts
- Comprehensive inventory management experience
 - > Focus on reducing obsolescence
- MyGBS Solution Portal
 - > You have 24/7 access to your business intelligence and insights to support your success

Production

GBS offers extensive experience and advanced production technologies to cost effectively support the variety of printing options to meet your label needs. From short run digital to utilizing our advanced adhesive coating and inline converting process to support large run requirements...GBS has the most cost effective production process to support your organizations label requirements.

We believe the long-term success of focusing on the “Total Cost of Ownership” starts and ends with a commitment to Quality. Our rich history servicing the strict compliance requirements of the Pharmaceutical industry has benefited all of the vertical markets we serve.

In order to ensure uninterrupted print production and manufacturing redundancy, GBS operates out of two manufacturing facilities.

Commitment to Quality

GBS has a proven commitment to providing excellent quality products and services to our customers as shown by our certifications.

- ISO 9001:2008 – Our Quality Management System is structured and based on the ISO 9001:2008 Quality Standard
- ISO 14001 – establishes the criteria for an Environmental Management System (EMS)
- FDA/GMP compliant

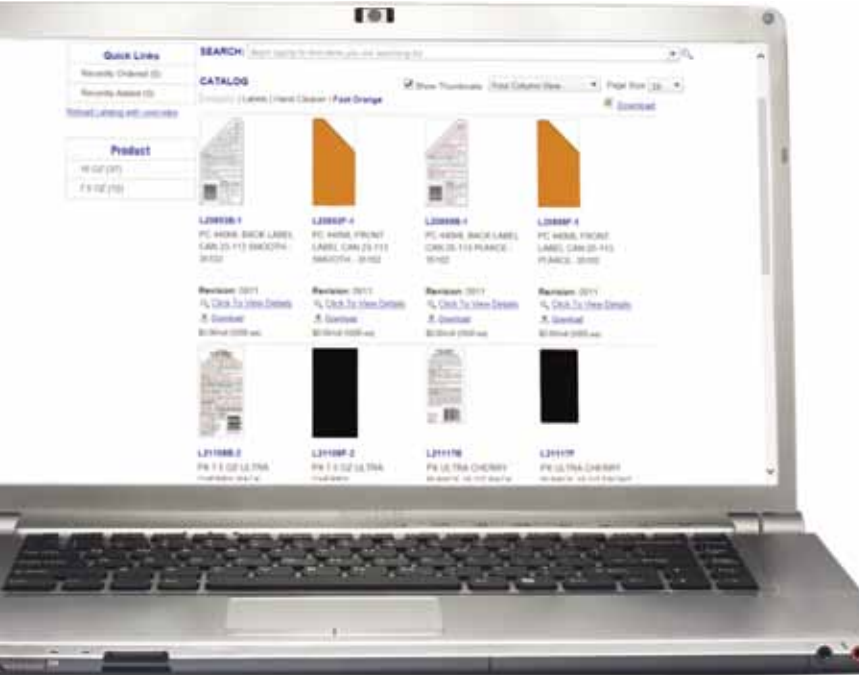

Warehousing and Distribution Services

Save space and reduce costs by storing your print and label needs with GBS in our 100,000 sq. ft. warehousing facility located in North Canton, Ohio. Utilizing over 40 years of distribution and inventory management expertise, we can deliver your products on time to the appropriate location.

MyGBS

The MyGBS Solution Portal provides 24/7 access to all of your mission critical inventory information of your printed materials. MyGBS provides our clients immediate and real time access to the “Business Intelligence” and insights to support the success of your Label Management program.

MyGBS is an online single-source catalog for creating, managing, deploying and retrieving your print and label items. Users have 24/7 controlled access to an assortment of item actions and functionality via a secured access and multiple browser and login options.
