

Practice Management

Remarkable design. Empowering your practice to thrive.

Never before has such a powerful system been so easy to use. Already used by thousands of physicians, NextGen[®] Practice Management (PM) is the ideal system to improve both patient care and your bottom line.

THE SMART INVESTMENT

With all of the depth and maturity you would expect from a world-class application, NextGen[®] Practice Management (PM) combines an intuitive, easy-to-use interface with true enterprise functionality. NextGen[®] PM features customizable, encounter-driven scheduling and billing processes that enable administrators to proactively manage the business of Healthcare. In addition, NextGen[®] PM includes measures for quality assurance in managing patient financials.

A STEP ABOVE THE REST

NextGen[®] PM offers key functionality that most other vendors' systems do not. Multiple master patient indexes can be defined and operate on a single database. Clients have the ability to automate internal policies and procedures within the logic of the system and have tasks automatically assigned and distributed to the appropriate people. The Ad-Hoc Report Writer is extremely easy to use and features drill down capabilities, enabling users to easily customize reports and memorize them for future use. NextGen[®] is also one of the few products that has completely redesigned the claims, remittance, and eligibility files within the application around HIPAA requirements. As a result, Clients can go directly for claims and remittance transmissions to any insurance payer that adheres to these standards.

NEXTGEN
HEALTHCARE INFORMATION SYSTEMS

NextGen[®] PM is a true practice management system with robust features that delivers superior return on investment by streamlining front- and back-office administration, improving communication among staff, reducing A/R days, and enhancing the quality of patient care. This software is scalable to meet the needs of any size medical practice—from small solo practices to large multi-provider, multi-location Healthcare groups and multi-group enterprises.
